## A SLIGHT INCREASE.

Mr. Vernon's Population Placed at 6,000 by Supervisor.

By Census Supervisor Peleman informs the BANNER that the result of the recent census will place Mr. Vernon, in round numbers, at 6,000 population. The official figures will be placed at 6,000, but it is believed that it is the figure that will be quoted to represent us for the next ten years.

The last census report the present one was made by the city papers and the Census Bureau and other leading citizens recommended, that proportion be taken to an exacting territory that rightfully belongs to Mr. Vernon. Had this been done prior to the first day of June last, at least 1,500 names might have been added to our population.

The present census report does not carry out the theory that the ratio of the voting population is due to the fact. The last Presidential vote in Mt. Vernon was as follows: Harrison 32, Cleveland 500, Fiske 37, Streeter 4—total 1383, which multiplied by five gives 6,915.

Of the 6,000 population, the ratio of 6,000 to 100,000 would give a vote of 6,000.

It has been suggested that Council pass a general annexation ordinance, bringing in the thickly settled districts to the south, west and north of the city, when this is done the Mt. Vernon Board of Trade take steps to have the entire population annexed, when the result obtained can be officially promulgated, and our city take the proper place among the growing and thriving county seats of Ohio.
